-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless-

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Evans '242 as set forth in the previous Office action.

Claims 1-20 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Limberger '448.

In reference to applicant's arguments is the following: In applicant's arguments there is a discussion of the use and size of the Evans device. It appears that the applicant's position is that the Evans device is structure that is employed to impede the accumulation of grass and is not "sized and structured" to cut grass or brush. The Examiner disagrees. Firstly, under 35 USC 102 there is only the requirement that the structure be capable of performing as the claimed device. Upon viewing figures 1 and 2, it is clearly seen that the size and mass of chains 12 is at least as much, if not greater

Art Unit: 3671

than, that or blade 7. This would inherently allow for chains 12 to perform a cutting function. Further, the applicant argues that the Evans device has no "anchor plate having an overall planar shape". Again, the Examiner disagrees. The plate 14 of Evans is clearly "planar" (as seen in figure 2). Further, the hole 20 in this planar plate is capable of allowing a bolt to pass through it.

Applicant's arguments filed November 15, 2004 have been fully considered but they are not persuasive.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
